Vinambule*

Who we are

In Vinambule, there is "vin" (i.e. wine of course) and ambule (like in Latin ambulare, meaning to walk around).

That is the objective of our small company, created in Annecy for the love of wine, walks and mountain landscapes.

We wish to take you for a « promenade » around wine, to discover the places, the people and the products, all unique, who make the soul of the wine terroirs of Savoie.

Wines in Savoie

You like mountains in general and Savoie in particular... You have a clear interest for wine...

You suspect that Savoie wine is not just this dry, acid white wine that goes with fondue... Or you are perfectly aware of this, but would like to deepen the matter...

Let us guide you, and share our taste for mountain landscapes, walks, good wines and the winegrowers of Savoie who make them.

Vinambule offers a wine touristic exploration of the unique terroirs of Savoie, accompanied by a qualified specialist: varied and fun walks in the vineyards, guided discovery of wine landscapes, meetings with winemakers, picnics and beautiful tastings, in small groups, on a full day.

In a family, not everyone drinks wine!
But everyone can enjoy the ride, sharpen their taste buds with soft drinks, and share the discovery. We adapt.

How are we moving?
Between the walks or visits, transport by vehicle is offered, you will taste the products with full peace of mind.
